Report
The major activities of the IU School of Education’s Policy Council’s Subcommittee on Research and Development focused primarily on the management of the SOE’s internal grant competitions. This year this included 4 distinct programs: Profitt Research Grant Program, Profitt Summer Support for Faculty Grant Program, Kempf Grant Program, and Creative Pathways to Peace Program. The first three programs the committee revised RFPs, solicited proposal reviewed proposals, and made ordered recommendations for funding to Associate Dean Sherwood.

The R&D committee also engaged in a couple of other important tasks in the service of the SOE. This included:

- Meet with Associate Dean Sherwood to consult with him in the school’s new policy on sharing cost recovery with funded grants with Principle Investigators.
The committee worked with Ada Simmons to develop and refine a first year activity report for the Dean’s new Pathways Initiative Program.
Policy Council’s Subcommittee on Research and Development
